

### Map of STP Footprints

*Do you need help visualising the STP footprints?*

Our Map of STP Footprints is clearly colour-coded and lists relevant organisations in each area including trusts, CCGs, local authorities and vanguards. At B1 size, this large map is the ideal tool for reference, plotting and planning.

### STPs – we've got it covered

Sustainability and Transformation Plans (STPs) are transforming the face of NHS commissioning. Stay ahead of the changes critically impacting your business with Wilmington Healthcare's range of STP products and services, all designed to save you time understanding the landscape and to work more effectively with the new NHS.

### STP monitoring tools

Our STP monitoring tools provide you with valuable and actionable insight on the changing NHS. See at-a-glance who's who at the footprints and what their challenges and objectives are.

Understand how the landscape and stakeholder profile has evolved: local priorities have changed, ensure your offer is relevant to your new customers' needs and minimise the impact on your business.

### STP online training course

Wellards' STP course offers insight and explanation on these important plans that will have an impact on a range of NHS areas: structure, leadership, commissioning, NHS KPIs, efficiency, procurement and patient pathways.

### STP webinars and events

Wilmington Healthcare hosts STP events and webinars which give a comprehensive explanation of the STP process and how the implementation is progressing.

### STP market segmentation

Our unique segmentation tools provide detailed insight into the levels of sophistication by organisation and footprint. Dissect the market by CCG, provider, local authority or STP to understand how organisations perform against a range of indices including:

- Secondary care burden
- Ability to implement plans and effect change
- Medicines optimisation
- Managing budgets and performance against plans
- Health inequalities
- Innovation
