

Digital Learning Academy

The only online learning content on the NHS and its sales environment that is tailored for the life sciences industry.

Our new world-class learning management system provides an interactive and engaging experience that offers fast and easy access to the most relevant NHS information and learning resources.

» Available on any device

- Access courses, exams, forums and resources wherever and whenever you want to
- Learning content works effectively on any device

» Increase your competitive advantage

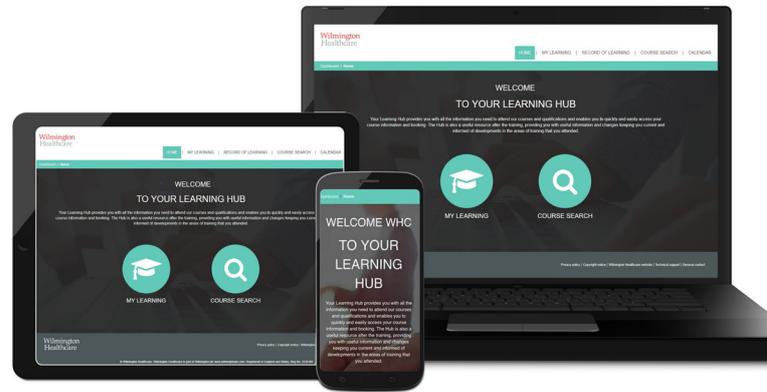

- Quickly identify the courses you need
- Build knowledge and confidence to engage your customers more quickly and more effectively on their level
- Build your business's reputation as a trusted partner within the NHS

» Powerful reporting and tracking

- Ensure compliance and training objectives are met
- Create and schedule reports to demonstrate usage, progress and achievement

» No time to complete a course? No problem

- You can pick it up again where you left off, without having to remember how far you had got

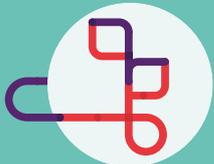

Just 3 clicks away from your learning and resources

Engaging and interactive user experience

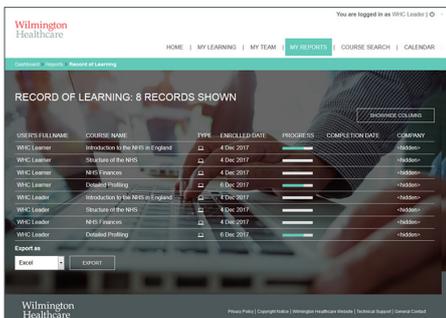

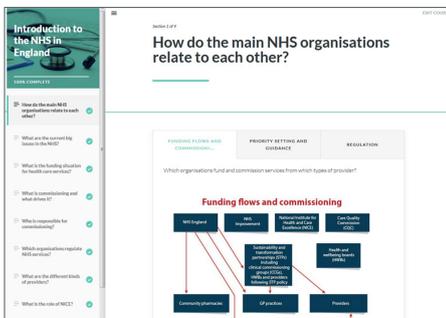

Gamification functionality

World-class learning management system

Hospital and theatre access courses accredited and accepted by MIA, Sec³ure and Who Are You Ltd

Digital Learning Academy

TRAINING MANAGERS

Enable your teams to access complete coverage of the NHS environment in a way that's quick and engaging. Help them meet their learning needs and objectives by motivating them to maximise all training resources and keep abreast of NHS developments, policies and constraints.

Robust training around compliance and the latest industry code ensures peace of mind and by confidently demonstrating enhanced customer insight they will strengthen partnerships with clients.

Monitor progress at different levels and schedule a variety of reports to track usage. The interactive content enables greater knowledge retention and allows you to maximise training resource and justify investment.

TEAM LEADERS

Empower your team so they can effectively engage with healthcare professionals and procurement leads. Instant access to quality content on all devices ensures you gain competitive advantage through specific knowledge and insight.

Help your team gain confidence and credibility as they position themselves as clinical experts with healthcare partners.

Effective reporting identifies knowledge gaps and can be tailored to suit your individual requirements.

Easily monitor your team's progress to ensure compliance and training needs are being met.

The Digital Learning Academy will help you to...

Access NHS insight and knowledge on any device

Keep up-to-date with the latest compliance and industry code

Build credibility with HCPs through enhanced knowledge

Maximise training resource and investment

Improve recall and convert knowledge into effective business outcomes

Achieve lifelong learning goals
