## **AGENDA**

### **Presentation Overviews**

#### **Update from NICE – Improving care and support for people with dementia**

This presentation will provide an overview of NICE; in particular this session focuses on what NICE has done to support dementia and gives an overview of the update ddementia guideline. It also runs through NICE quality standards for dementia and details how to use them to support quality improvement. This presentation will provide an overview of the tools and resources NICE has produced to support the implantation of such guidelines and quality standards.
