

Database of GP Practices provides an accurate and reliable means to communicate sales and marketing messages to GP practices throughout the UK and Republic of Ireland.

All information within the database is regularly primary source verified and updated by our specialist team of researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Data can be segmented to enable targeting of campaigns by:

- Commissioning area
- Job responsibility/title
- Number of partners
- Patient list size

Database contents

There are 141,669 named individuals on the database.

Additional fields available:

- Computer systems each practice is using
- Dispensing practices
- GMC Code
- GPs with an interest
- Organisational Data Service Code (ODS)
- Prescribing decision support system
- Training practices

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **September 2020**.

Responsibility/Role	Count	Responsibility/Role	Count
