

Hospital doctors work within many specialist fields covering medicine, surgery, pathology and psychiatry but may also be involved in teaching and carrying out research. As well as day-to-day administrative duties such as keeping patient records and writing reports, hospital doctors are increasingly undertaking managerial responsibilities in hospitals, getting involved in auditing and attending committee meetings.

Database of Hospital Doctors is ideal for anyone wishing to communicate with hospital doctors throughout the UK and Republic of Ireland.

All information within the database is regularly primary source verified and updated by our specialist team of researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

The data can be segmented to enable targeting of campaigns by:

- Grade
- Job responsibility
- Region
- Services provided by the organisation
- Specialty or umbrella specialty

Database contents

There are 76,362 named individuals on the database.

Additional fields available:

- Area of expertise by therapy area
- Organisational Data Service Code (ODS)
- Sub specialties by therapy area

Grades:

- Associate Specialist
- Clinical Assistant
- Consultant
- Dental Officer
- Professor
- Specialist Registrar
- Staff Grade

Responsibility/Role	Count
Clinical Directors	1,696
Director of Public Health	186
Medical Director	955
Other Hospital Doctors	75,332
Public Health Consultant	354
Regional Advisor In Anaesthesia	14
Regional Advisor in Intensive Care Medicine	24
Regional Advisor In Pain Management	15

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **May 2021**.
