

Database of Medical Laboratory Professionals

P1 of 2

Medical laboratory professionals are healthcare professionals who work in an analytical or diagnostic capacity in clinical laboratories and research facilities in hospitals. They are constantly under pressure to procure clinically and cost-effective laboratory technology and supplies to deliver patient-centric services.

Database of Medical Laboratory Professionals contains key contacts covering various responsibilities and specialties within the medical sciences field.

All information within the database is regularly primary source verified and updated by our specialist team of researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

The data can be segmented to enable targeting of campaigns by:

- Job responsibility
- NHS organisations
- Private hospitals
- Region

NOTES: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **November 2021**.

Database of Medical Laboratory Professionals

P2 of 2

The database covers the following areas of specialty/service:

- Bacteriology
- Biochemistry
- Cardiology
- Cardiophysiology
- Chemical Pathology
- Clinical Chemistry
- Clinical Genetics
- Clinical Immunology
- Clinical Pharmacology
- Clinical Physiology
- Cytology
- Cytopathology
- Dermatology
- Dermatopathology
- Endocrinology
- Foetal Medicine
- Gastroenterology
- Gynaecological Clinical Oncology
- Haematology
- Haematology Oncology
- Hepatology
- Histology
- Histopathology
- Imaging
- Immunology
- Immunopathology
- Infectious Diseases
- Infertility
- IVF
- Medical Genetics
- Medical Physics
- Medical Toxicology
