

# Database of Commissioners, Payers and Influencers

Our Database of Commissioners, Payers and Influencer's predominantly focuses on commissioning functions but also includes key influencer's across the healthcare system, social care and public health.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

**Notes:** It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
