

Database of Dentists

Dentistry is the branch of medicine that is involved in the study, diagnosis, prevention and treatment of diseases, disorders and conditions of the mouth, maxillofacial area and the adjacent and associated structures and their impact on the human body. Dentists, together with their supporting team are responsible for providing oral health services.

Our Database of Dentists contains key budget holders and decision makers in Dental Practices across the UK.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Data can be segmented to enable targeting of campaigns by:

- Geographic area
- Job responsibility
- Types of Services provided by each Practice

Database contents

38,106

Responsibility/Role	Count
Dental Practice Manager	8,678
Dental Practitioner	29,428

Organisation types:

- Dental Practice

For the most up-to-date counts or to speak to us about our Campaign Packages, please call **01268 495600** or email sales@wilmingtonhealthcare.com

Notes: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
