

# Database of GP Practices

Our Database of GP Practices provides a comprehensive and accurate view of key stakeholders within GP Practices across UK and Republic of Ireland, giving your teams data to precisely target and understand the market.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

**Notes:** It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
