

Database of Healthcare Management in Republic of Ireland

Healthcare in Republic of Ireland is provided through their public health care system which is managed by the Health Service Executive and funded by general taxation.

Managers need to prepare for navigating competing demands and priorities from within their organisation and work with administrators, providers financial managers, marketing specialists and others.

Our Database of Healthcare Management in Ireland contains key stakeholders and decision makers within selected management roles.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Data can be segmented to enable targeting of campaigns by:

- Job responsibility
- Organisation type

Notes: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
