

Database of NHS Commissioning

Our Database of NHS Commissioning is an accurate means to communicate with key stakeholders in Healthcare in the UK. This product combines relevant HCPs for ease of review and selection.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

Database contents

22,823

Notes: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
