

# Database of NHS Management

The NHS provides an enormous range of services to millions of people across the country. Without skilled and dedicated managers to lead and run it, it would not be able to do what it is here to do, Treat and care for patients.

NHS Managers plan a key role in ensuring that services are delivered by making sure clinicians have what they need to care for patients. This can include securing the right buildings, facilities, equipments, information and support staff to get the job done as safely and efficient as possible.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

## Database contents

54,678

Responsibility/Role	Count
Accountable Clinical Director	1,458
Accountable Commissioner	17
Acute Commissioning	253
Advocate	20
Area Team Commissioning Director	9
Assistant Director of Finance	260

**Notes:** It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **July 2022**. De duped counts available upon request.
