

# Database of Allied Health Professionals

Allied health professionals (AHPs) are key members of today's multidisciplinary healthcare team. They work in partnership with colleagues across the healthcare system as well as in the independent and voluntary sectors. They operate in a range of surroundings including hospitals, community, clinics and surgeries.

Our Database of Allied Health Professionals contains accurate contact details for AHPs working across areas including dietetics, perfusion, physiotherapy, podiatry and radiology.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, highly targeted data you need and the reassurance that you will be GDPR compliant.

**Organisation types:**

- GP Practice
- Health Board Scotland
- Health Board Scotland Combined Service
- Health Board Scotland Specialist Service
- Independent Hospice
- Islands
- Local Health Board
- Private Hospital

For the most up-to-date counts or to speak to us about our Campaign Packages, please call **01268 495600** or email [sales@wilmingtonhealthcare.com](mailto:sales@wilmingtonhealthcare.com)

**Notes:** It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **May 2023**.
