Database of NHS Estates and Facilities Management

The NHS has a huge property portfolio, making estates and facilities management an important part of the regular conduct of our NHS.

Our Database of NHS Estates & Facilities Management comprises key decision makers who have budgetary control and influence in the procurement of a vast range of estates and facilities products and services.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

The data can be segmented to enable targeting of campaigns by:

- Job responsibility
- Organisation type
- Region

Database contents

6,231

Notes: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **May 2023**.
