

# **Database of NHS Management**

The NHS provides an enormous range of services to millions of people across the country. Without skilled and dedicated managers to lead and run it, it would not be able to do what it is here to do, Treat and care for patients.

NHS Managers plan a key role in ensuring that services are delivered by making sure clinicians have what they need to care for patients. This can include securing the right buildings, facilities, equipments, information and support staff to get the job done as safely and efficient as possible.

All information within the database is regularly verified and updated by our specialist team of product researchers; giving you the quality, targeted data you need and the reassurance that you will be GDPR compliant.

The data can be segmented to enable targeting of campaigns by:

- Clinical services
- Job responsibility
- Organisation type
- Services offered by Trust
- ICB/Integrated Care System

## Additional fields available:

- Organisational Data Service Code (ODS Code)
- Bed Numbers per Trust

#### **Database contents**

- Radiotherapy Network
- Regional Partnership Board
- Special
- Strategic Clinical Network
- Trust
- Unit
- Welsh Regulatory Board

For the most up-to-date counts or to speak to us about our Campaign Packages, please call 01268 495600 or email sales@wilmingtonhealthcare.com

**Notes**: It is common for contacts to have more than one responsibility. It follows therefore that there will be fewer named individuals on the database than there are areas of responsibility indicated above. Numbers of contacts will vary during the research cycle due to organisational changes. Counts were correct at time of publishing; **May 2023**.
